Att. Mr. Rob Weaver

Sarajevo, January 2018

Dear Mr. Rob Weaver,

On behalf of the Bosnian – Herzegovinian – American Academy of Arts and Sciences (BHAAAS) we would like to express our deepest gratitude for your donation of Medtronic devices: SynchroMed II infusion pump and SynchroMed refill kit valued over 10.000,00 \$ and your effort in helping this process happen for the first time in Bosnia and Herzegovina.

Your recognition of importance of this whole process, expressed through concrete action to help University Clinical Center Sarajevo, Clinic for Neurosurgery perform this surgery and help one little boy.

This is a great honour and it provides encouragement to continue introducing new services for patients and making this treatment now available at the University Clinical Center Sarajevo and it will represent great importance for all citizens of Bosnia and Herzegovina.

Thank you once again for your support.

Faithfully Yours,

Dr. sci Nirvana Pištoljević
BHAAAS President
