Call for papers

During the eleventh (11th) days of Bosnian-Herzegovinian American Academy of Arts and Sciences (BHAAAS) in Bosnia and Herzegovina, the Development, Promotions and Advanced Technologies Applications Society (DnT), in cooperation with BHAAAS, will organize the

International Symposium on Innovative and Interdisciplinary Applications of Advanced Technologies - IAT 2019

The International Symposium on Innovative and Interdisciplinary Applications of Advanced Technologies is an international forum for scientists, engineers, and students to present their latest research and development results in innovative and interdisciplinary applications of advanced technologies. The conference provides an opportunity for researchers, academics, scientists, and engineers to present their work, publish their results, exchange ideas, and network for scientific and industrial collaborations. The emphasis will be on peer-reviewed papers with high scientific and technical quality.

Topics: Paper and presentation topics include (but are not limited to): Pure and Applied Mathematics, Computer Modeling and Simulations for Engineering Applications, Civil Engineering, Biomedical Engineering, Computer Science, Computer Modeling, Communication Technologies, Power Quality, Mechatronics, Robotics and Embedded Systems, Electrical Machines and Drives, Advanced Electrical Power Systems (Planning, Operation and Control), and Mechanical Engineering.

Symposia: Based on the number and scope of the papers received, a variety of thematic symposia will be organized where authors will be able to present their papers.
